The West Central Ohio Safety Council Presents:

Eric Giguere

Hear the near-death workplace
accident story of Eric Giguere and
learn why SAFETY is so important
to YOUR business!

www.safetyawarenesssolutions.com

Eric's unique experience and his abilities to relate to those around him are a few of the compelling qualities he uses to captivate his audience and he drives the need for personal safety at work and home. As he tells his story, you can put yourself at the scene and feel the horror that everyone around there did. Every company should have their employees listen to his message, they will be able to relate THEMSELVES to Eric's situation, and see how skipping small safety steps can lead to a catastrophic event. Eric tells his story from the point of view of the backhoe operator who had to help dig him out, the other employees with shovels, the supervisor who did not enforce safety, and his family, including how it still haunts them today.

March 19, 2013
